EXPERIENCE

Front-End Developer   2022 - Current
Company: Ditec

Currently, I excel as a **Front-End software developer**, using **React.js**. One of my greatest virtues is my ability to style and structure the website with **HTML** and **CSS**. Throughout my time here, I have primarily focused on developing an e-commerce platform for a prominent US-based company. known as "BuckedUp".

HARD SKILLS

HTML CSS JavaScript   React.js Next.js   Tailwind Git GitHub SASS LESS React Native

I continuously strive to learn and am always open to discovering new tools.

COMPLEMENTARY SKILLS

I endeavor to be organized in programming by creating clean and readable code. Additionally, I place great importance on design and user experience when developing, applying the best practices (**UX/UI**).

EDUCATION

Platzi - Online Education Platform   2022 - 2023
